At Jones Feed Mills, our Beef Team understands the processes involved with getting cattle from the West to Ontario, getting them settled and started on their way. From touring the west seeing some of the very cattle that are arriving here today, to engaging in training on nutrition, management and finance, the Jones Feed Mills Beef Team is here to help you each step of the way.

Ask a member of the Jones Beef Team about the JONES STRESSFIGHTER program and let them monitor your cattle's performance from receipt to shipping.

A Note from our Equine Dept:

Maintaining condition on your hard-keepers through the winter can often be a challenge. Now is a good time to start to ramp up your feeding program to build a bit of a reserve to get your horses through the cold months. JFM has many high fat feeds and top-dresses available to complement any feeding program. For more information or to discuss your feeding program, contact Sarah Stewart at 519-699-5200.

To receive a copy of the new **JFM Equine Feeds Brochure**, call the office, drop by the Mill or ask Sarah for a copy.

Did you put a coat on this morning?

Chances are if you did, your calves should have too!

JFM recommends new-born calves wear a calf coat for the first 21 days of life when temperatures are below 10°C.

JFM Calf Coats - Available in 3 Sizes
(Small, Medium, Large)

Jones Dairy Sales Rep

Have a Safe and Happy Christmas!

Global Livestock Vitamin Update

JFM feels it is important to update you that global prices on livestock vitamins have increased this fall due to global pressure for foreign manufacturers to comply with international manufacturing environmental standards. This effect has put pressure on all manufacturer's supply. This lack of supply applies to vitamins for all species and is a global situation. As with all price fluctuations, JFM will adjust vitamin prices in mixes as prices correct themselves back to previous values. JFM Nutrition Dept.

Be sure to stop in for some great Christmas ideas!
