Try the Jones “Jolt” Pre-Starter and Starter Feed Program

The Right Nutrition at the Right Time!

www.jfm.ca

The Jones “Jolt” pre-starter program is based on Provimi’s Nurture™ swine research that led to a focus on feeding pigs based on age rather than body weight. A properly phased feeding program utilizing a series of pre-starter and starter diets will provide a smooth transition from mother’s milk to corn/soy diets in addition to optimizing performance and cost. The result of this approach is that pigs are able to digest feeds based on their age-ability and producers are seeing easier transitioning pigs that are bigger and healthier than based on weight. For more information on the Jones Jolt program, call 1-800-265-8735.
