

**Jones**  
FEED MILLS LTD.

**December 2023**

*We wish you a*  
**MERRY CHRISTMAS**  
AND A HAPPY NEW YEAR

### Jones Feed Mills 2023 Christmas Miracle Campaign

Jones Feed Mills would like to thank and congratulate everyone that donated to our Christmas Miracle Campaign this year. As a result of everyone's kindness, we were able to meet our target for toys, pajamas and funds for Sertoma International, the charity JFM has been supporting for several Christmas' now.

In addition the JFM staff pulled together to also collect food for our local Food Bank.

Thank-you All for your kindness and generosity!

### Jones Feed Mills Christmas Holiday Hours

Monday December 25 - Closed  
Tuesday December 26 - Closed  
Monday January 1 - Closed

Reminder from JFM dispatch to clear driveways and unloading areas ahead of delivery. This will help make unloading efficient and safe for all. *Thank You!*

Jones Feed Mills Ltd. | 1024 Alfred St. Linwood, ON | 1.800.265.8735 | [www.jfm.ca](http://www.jfm.ca)

## Introducing Happy Block

Enrichment in layers and broilers can help support bird production and welfare by allowing birds to engage in natural behaviours in a healthy way. Foraging is an especially critical behaviour that can be met with the use of pecking blocks. In fact, in layers, this can reduce the occurrence of feather pecking and aggression by redirecting their attention to a colourful pecking block, like the **Happy Block!** The bright pieces of corn and different pieces of oat hulls encourage curiosity and pecking while not interfering with the bird's nutrition program the way kitchen scraps may! A happier bird leads to better production and improved welfare. Happy Block is also organically certified. Call the office or talk to your JFM Rep to order!

## PREVAIL™

JFM is your supplier for Prevail. Prevail™ is a fast-acting, safe, one-step disinfectant-cleaner, that ensures surfaces are properly disinfected. Prevail™ is powered by Accelerated Hydrogen Peroxide (AHP) which combines unmatched efficacy with environmental integrity and application safety. Talk to your JFM Rep to learn more about Prevail™ and its many applications.

## Calf Coat Sale!

**BUY 4, GET 1 FREE!**

*Until December 31/23*

Calf coats should be used on calves from birth to 3 weeks of age when temperatures are below 10C. Ensure calf is clean and dry before putting on a coat. When removing the coat, pick a nice day to do so, and take it off in the morning.

## 2023 Ontario Toxin Values

At the time of writing, there is still a measurable amount of corn to be harvested in Ontario. Though there is a lot of information to be gathered yet, early indicators are that toxin levels for corn across the province is variable (some very low and some very high). Joens Feed Mills recommends toxin testing on corn that is to be fed, particularly in areas of concern. Talk to your JFM Rep to learn more on 2023 toxin levels.
