About:

Edgar's Feed and Seed was started over 40 years ago by Niel & Cathy Edgar. The business has grown to become a successful, vibrant part of their community with a focus on providing excellent customer service, advice and products.

In 2013, Elliott & Rebecca Miller purchased the business from Niel & Cathy and have continued to run the business under the same principals that they have always tried to live by.

They focus on providing support to beef, dairy, sheep, goat, veal, poultry, swine, alpaca and pet customers in all aspects of their production cycles.

They offer feed, crop seed, animal health products, gates, livestock feeders, bale wrap, net wrap, twine, milk replacer, and many other products.
