

WELCOME TIM MILLER

I'm excited to begin my new journey with Jones Feed Mills as a Dealer and International Sales Consultant! This role is a perfect fit, combining my passion for animal nutrition with my experience in sales and on-farm support.

One of the key reasons I chose to join Jones Feed Mills is that it is locally owned by a group of producers who truly understand the needs and challenges of the agricultural community. It's not just about the feed—it's about supporting farmers, both locally and globally. Being part of a team that shares this passion for the industry is a tremendous advantage.

With a strong background in both feathers and fur, I spent my time over the years providing technical support to farmers. My skills as an HVAC mechanic and gas fitter have allowed me to ensure optimal climate control within barns. As you know, proper ventilation, temperature regulation, and humidity control are essential for livestock health and productivity.

On the home front, my wife Lynn and I have made Wellesley our home for the past 17 years, where we've raised our three kids in this wonderful community. We love watching them grow through their various activities, from horse riding and football to nurturing their faith at Creekside Church.

Growing up in a farming family, agriculture has always been in my blood—even though, over time, I transitioned from milk pails to feed bags. I'm looking forward to connecting with our customers and partners, helping them grow their businesses, and learning something new every day from both you and the team at Jones Feed Mills. Don't hesitate to reach out—whether you want to talk feed, farming, or just swap a few good animal stories, I'm always up for a chat!
