

Jones Premixes

Your Source for Success!

The new Jones premix plant in Linwood, Ontario uses modern technology along with skilled labour to ensure a proper blend and mix.

Quality is always ensured with indoor loading.

Your Jones Beef Sales Consultant can design a feeding program specific to your operation and need.

Talk to your
JONES BEEF
Sales Consultant
to design your premix program or call
Jones Feed Mills

Ask about the Jones on-farm bin program!

The success of any ration is its ability to tie together the ingredients required to reach a specific Producer's goal of performance for their livestock.

At Jones Feed Mills, we specialize in the formulation of premixes that suit your individual need and help you maximize the use of your farm ingredients by only using the ingredients required to reach your individual goal.
