Jones says Thank-You and Good-Bye!

Last month, the staff at Jones Feed Mills said farewell to two of its employees.

Retiring from a career and lifetime of agricultural sales is Peter Dickie. In the four and half years Peter was with Jones, Peter was a Poultry Sales Consultant where he focused much of his energy on premix sales. Interesting, Peter was instrumental in introducing on-farm poultry feed mixing within the province and long consulted on the development and formulation of this process. On-farm feed preparation proved to be economically beneficial for those that adapted the practice and is now rapidly becoming common practice within that component of the industry. Peter, however isn't completely retiring, as he has accepted a part-time sales role with Jones selling premix to both layer and broiler farms in his native Nova Scotia and the neighbouring province, New Brunswick. Peter and his wife Martha, look forward to spending time in the Maritimes as their cottage is located there as well as their one son and his family. In his spare time Peter and his wife look forward to spending time with family and spoiling their grand-children! We thank Peter for his contribution and time with Jones!

Also making a change in life is Robbin Bauman. Robbin is most recently known within the Jones family as being the Sow Production Co-ordinator for Family Farm. Robbin has been employed with Jones for over six years and served in various capacities, including beef sales. Robbin and his wife Fern, along with their seven children are making a move this August to Stirling, ON where they have purchased a farm and where they will be feeding 1,200 wean to finish hogs for the Jones Family Farm business. Robbin is still working part-time within the Jones business assisting in managing parts of the sow business, however we wanted to recognize him for his many contributions and wish him and his family well with their new venture.

All of us at JFM thank Peter and Robbin and are excited that each are within the family of businesses with Jones where we can continue to work with and interact with each of them! Best of Luck Peter and Robbin!

3,400 Meals and Still Going!

Last month, Jones Feed Mills and Jones Family Farm were recognized by the Food Bank of Waterloo Region with its Industry Champions Award for our 2014 contribution of 2,550 lbs of processed pork that was donated to the region's food bank. This donation, which was mostly offered in the form of fresh pork sausage, translated into 3,400 meals for those in need within the region. This on-going commitment of fresh pork is just part of the commitment of Jones Feed Mills business and staff to assist in the community where possible.

John Witzel of The Food Bank, Jeff Jones, President, JFM and Peter Draper, Sales Manager, Jones accept Food Industry Award
