# June 2014

## Livestock Futures

### Passion and Commitment Creates Opportunity

Many people are aware of the Jones Feed Mills Family Farm swine enterprise. What people may not be aware of are the high demands this complicated and deadline focused business has on staff and those involved in the process. Keeping this all on track is Family Farm Humane Hog Manager, Larry Bowman.

Larry, an eight year veteran of the Jones Feed Mills staff is responsible for the process of member recruitment through to ensuring finished hogs make it to market. When asked what Larry enjoys most about his role managing Family Farm he comments, "...the opportunity to create sustainable family farm business' for the community and for future generations." Larry goes on to say he "enjoys the opportunity of working as a team with fellow employees as they address the challenges of making an anti-biotic free swine production process successful." Larry who lives on a farm near Elora, is very passionate about his role and the team he works with and as a result is highly responsible for the success of this unique program. When not at work Larry enjoys spending time on the golf course, fishing or relaxing by reading. Larry and his wife Wilma, have 4 children and 9 grand-children, and has performed mission work in such places as Nicaragua and Grenada which he really enjoys.

July 17	Aug 12

### Safety Tip! On the Farm and at the Mill...

Jones Feed Mills would like to remind everyone of the dangers involved with feed trucks coming onto their farms and to ensure that they stay clear of all trucks at all times. Please keep all children, pets and animals away from trucks when unloading feed as Drivers are often unaware of movement in and around the truck when unloading feed due to noise and the operating of equipment.

This request also applies to Customers and Suppliers when visiting any of the JFM Mills. Please keep all Riders in the truck cab/vehicle or in a safe location. Let's all help keep everyone safe!

***Safety is Everyone's Responsibility!***
