FEED MILLS LTD.

JUNE 2024

**Notice: Jones Feed Mills is closed Monday, July 1st, 2024 to recognize Canada Day.
We wish all our customers and staff a safe and happy Canada Day Weekend!**

Murray Scholl Joins Jones Feed Mills

Jones Feed Mills is excited to announce that Murray Scholl has joined JFM in the capacity of Beef Sales Consultant. Murray is a seasoned veteran of the feed and feed-ingredient industry and has a wealth of nutrition and sales support knowledge that comes from years of dedication and experience.

Murray graduated from the University of Guelph with a Bachelor of Science degree in Agriculture (Honours) which started him on his path of working in agriculture. Murray lives in Stratford and will be working throughout south-western Ontario, servicing new and existing JFM customers. When asked about Murray coming on board with Jones, Peter Draper, JFM Sales Manager comments, "Murray's many years of feed industry experience and extensive knowledge, combined with his pleasant personality and sincere approach to helping customers is perfect fit within the Jones Beef Team."

When asked about his appointment to JFM, Murray comments, "Joining Jones Feed Mills will be a good fit for me; I have taken some time off to reflect on my values and have decided to join Jones....I look forward to working with our beef customers and becoming involved in the industry."

Murray has three grown sons and enjoys spending time with his family. When not working, Murray keeps busy with home projects, volunteering with his church, keeping fit as well as being an active member of the Rotary Club of Stratford. Please join all of us at Jones Feed Mills in welcoming Murray to the team!

PREVAIL

PREVAIL™ JFM is your supplier for Prevail. Prevail™ is a fast-acting, safe, one-step disinfectant cleaner, that ensures surfaces are properly disinfected. Prevail™ is powered by Accelerated Hydrogen Peroxide (AHP) which combines unmatched efficacy with environmental integrity and application safety.

Talk to your JFM Rep to learn more about Prevail™ and its many applications.

Dosto® Caps Available from JFM

JFM is now distributing Dosto® caps from Canadian Bio Systems. Dosto® caps are an revolutionary oregano essential oil additive

that supports digestive and intestinal health in young beef and dairy calves.

Dosto® caps are administered at birth (up to 55kg BW) and aid in immune function, growth and overall health while reducing the incidence of scours.

Talk to your JFM Sales Consultant to learn more or to order.

HEAT STRESS

Hot Times are Here! Are you ready?

Heat stressed cows rob you of production, reproduction and cow health. Research has shown these losses can affect your herd long after the summer months have passed. JFM has heat stress management programs and products, (ex: Jones Blue Line) that can help keep your cows cooler and more comfortable and reduce the losses associated with heat stress. Talk to your JFM Dairy Sales Consultant now to learn more and to get your cows on Blue-Line before the heavy heat arrives.

Compartment Mill to Africa Update

Bob Brown of Elmira, who initiated the request in 2023 to acquire and refurbish some compartment mills for Africa, brings us the following update on their project:

Over the years, Bright Hope has engaged in a wide range of agricultural projects. None of those projects have come close to the impact that the feed mills have had on entire communities. Localized feed production has opened up new opportunities for crop farmers, the feed itself has enabled farmers to venture into livestock and poultry production, and the Church networks are utilizing profits to make sure that the most vulnerable are not forgotten as communities begin to move forward in agricultural development. Our goal over the next few years will be to acquire more mills, engage with more communities and many more farmers. In conclusion, Bob writes, “Thank you again to Jones Feed Mills for reaching out to their customers; their generosity of donating these proportioner mills is making a difference in the lives of the people in Zambia.”

Jones Feed Mills wishes to thank those who donated their compartment mills to this very worthy cause!

Wrap Removal

As always, but particularly in the warmer months, JFM reminds you to remove the plastic wrap from your skid of bags upon receipt.

Keeping the plastic wrap around your feed will promote sweating due to atmospheric humidity and/or

feed being bagged when warm and can cause mold and/or mustiness. So, to beat the heat, remove the wrap!
