## Jones Feed Mills Hires Logistics Co-ordinator

Jones Feed Mills is pleased to announce that Steve Curliss has been hired into the newly created role of Logistics Co-ordinator. In his role, Steve will be responsible for furthering the efforts in feed delivery co-ordination and timeliness. Steve brings with him a host of experience as seen by his past roles in logistics from the automotive industry where he was involved in road support, yard management and cross-dock design. Steve has been with Jones for one month and is already involved in reviewing our feed delivery route process and trucking effectiveness across all JFM delivery zones. When asked how this new role is a fit for Steve, he comments, "My interests in always improving and learning are suited for this role as it's a dynamic environment where the day can change quickly based on feed demand, location and weather. Steve, his wife and 7-month-old son (and 2 awesome cats!) live in Wellesley and when not at work he enjoys skiing, curling, snowboarding, cycling and board games. Please join us in welcoming Steve to JFM!"

## Just in Time for Kidding Season!

Jones Feed Mills is excited to announce that we have recently **re-formulated** both our **kid milk replacer** and **kid starter**. Both products have been re-balanced to further enhance health and growth. The milk replacer, now available as a custom order is a 21-21-24 and mixes well for both machine and hand-feeding systems. The starter, sold under the code WSGSTART uses the same Neo-Tech technology as in the JFM WSC18 calf starter. To learn more or to receive the new JFM Kid Feeding Guide contact Mike Mathieson at 519-502-0701 (phone/text)

## Health Canada and Antimicrobial Access

Health Canada is making changes to antimicrobial access. As of **December 1, 2018**, antimicrobials will **no longer be sold at livestock medicines outlets**. A **veterinary prescription** will be required to purchase these products. Ionophore products and coccidiostats will not be affected. JFM will continue to update you.
